Introduction

This document outlines the way Foster Care Associates operates as an independent fostering agency.

We hope this document is clear and can be understood by children and young people, Foster parents and staff. We welcome any comments about how we might improve the content or format. See contact details on back page.

The FCA Children's Guide and the FCA Young Person Guide contain a summary of this statement of purpose.

Foster Care Associates (FCA) Statement of Purpose is available to:

- Any person working for FCA.
- Our Foster parents and prospective Foster parents.
- Children and young people who are placed with our Foster parents and the parents and families of any such child/young person.
- Local authorities and health and social care trusts.
- Colleagues from other social care agencies.

Our Statement of Purpose has been developed to meet the requirements arising from:

- The Care Standards Act 2000.
- The Children Act 1989 and the Children and Young Persons Act 2008.
- The Fostering Services Regulations (England 2011)
- The National Minimum Standards for Fostering Services (England).

FCA - Part of the Polaris Community

Polaris is one of the UK's largest leading communities of children's service providers. Within the community, we have independent fostering and adoption agencies who have been passionately improving the lives of young people for over 30 years, as well as Leaving Care services, Education and bespoke children's services contracts. Our nurturing community works collectively to support the very best outcomes for each and every child in our care. We're ambitious for our children and young people, families and staff, and believe in their futures.

Our Mission, Vision and Values

At Polaris we have one ambition across our community – to transform the future of children and children's services.

“At the very heart of our Polaris Community is a common aim where everyone is committed to enabling every child and young person in our care to reach their full potential. We are ambitious for ourselves and our children. I am exceptionally proud that I am surrounded by an inspirational team of staff

and families who are completely committed to making a difference and to achieve the best outcomes for children across the UK. I am exceptionally proud that I am surrounded by an inspirational team of staff and families who are completely committed to making a difference and to achieve the best outcomes for children across the UK.”

Jo August
Chief Executive Officer

Aims and objectives

FCA offers high quality family placements and related support services to children and young people who are looked after by local authorities/health and social care trusts.

Our primary aim is to give children and young people the opportunity to achieve their full potential and to live fulfilling lives in the community.

We work in partnership with local authorities/health and social care trusts, to offer community based services within national frameworks, designed to meet a wide range of needs. We provide intensive, locally based support to our Foster parents, children/young people and their families via multidisciplinary teams of childcare professionals.

Our objectives:

- To provide a child-centred and inclusive partnership based approach which embraces children/young people, their families, Foster parents, local authority/health and social care trusts and other agency colleagues.
- To do everything possible to achieve a stable placement, free from disruption, where a child/young person's needs are understood and met.
- To respect and promote the racial, cultural, religious and linguistic backgrounds of children/young people.
- To consider fully the gender and sexuality of fostered children/young people when making placement decisions.
- To meet the needs of disabled children and young people including those with physical/learning disabilities, Autism/ADHD, sensory impairment, and those who have complex health needs and are life limited - also those that present with challenging behaviours due to their disabilities.
- To recruit Foster parents from a wide range of backgrounds so that we can offer appropriate placements for children/young people.
- To provide 24 hour support for our Foster parents and children/young people, 7 days a week.
- To provide ongoing training and development of our Foster parents.
- To provide a workforce of managers, practitioners and support staff who are appropriately qualified and registered with their professional regulatory body, as well as being supported in continuous professional development.

Status and constitution

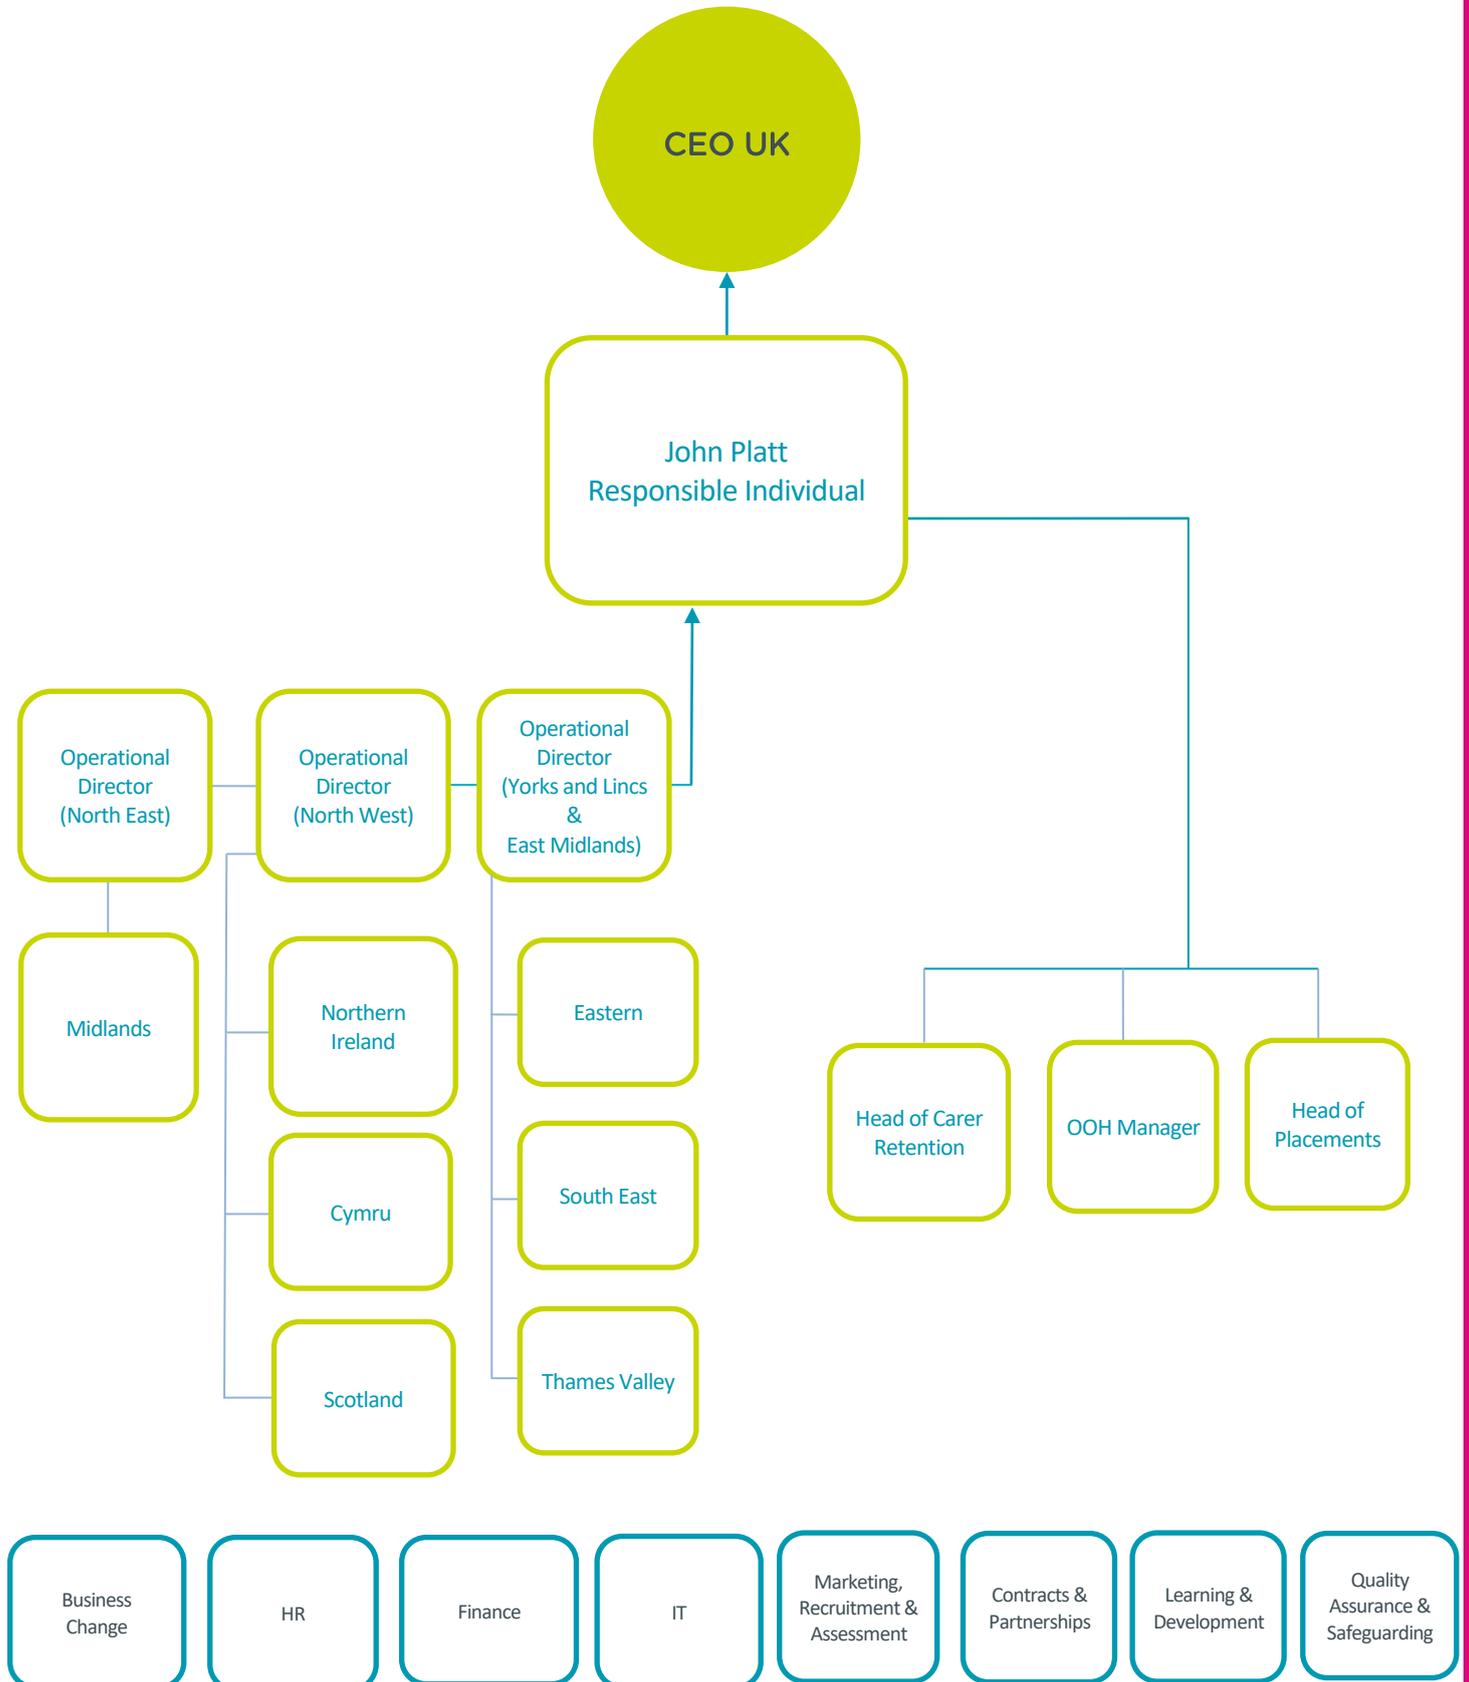

FCA, an independent fostering agency, is a private limited company registered under the Companies Act 1985 (company number 4322806). We began operating in 1994 and have consistently

grown and evolved to meet the needs of looked after children and young children and young people in the UK.

In accordance with the Companies Acts 1985 and 1989, we produce a

Memorandum of Association and Articles of Association. Copies of these are available to the government commissions, which regulate independent fostering agencies and children's social care throughout the UK.

FCA Central Organisational Chart

OUR CHIEF EXECUTIVE OFFICER

Jo August was appointed Group Chief Executive Officer (CEO) in May 2019. Jo is one of the most experienced and successful leaders in the fostering sector in the UK and brings with her more than 20 years of professional experience. Jo has another interesting dimension to her profile and brings with her valuable and relevant insights from having herself grown up in a fostering family.

Management structure

The strategic direction, service development and performance of FCA is monitored by the FCA Board of Directors who meet monthly.

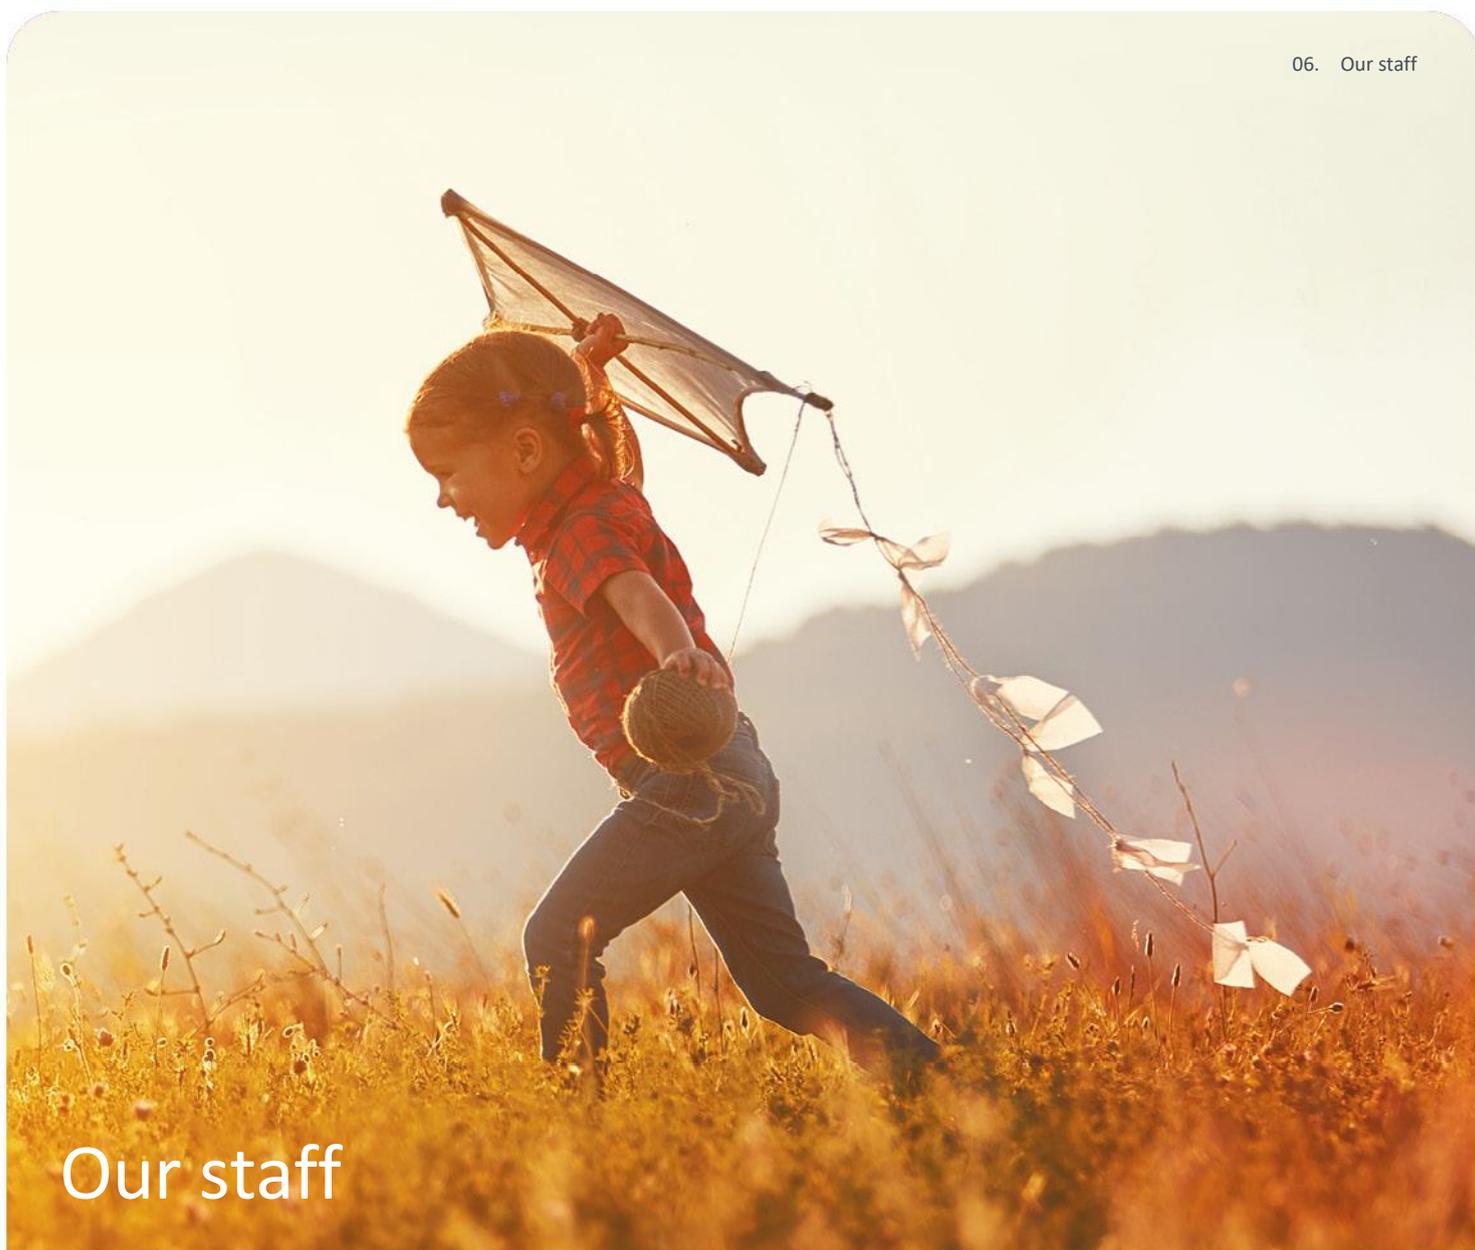

The Board of Directors is supported by a Senior Management Team which meets monthly to direct and monitor the performance of the company's activities, business planning and policy development. This team is supported by the Registered Manager and Heads of Service.

The Registered Managers report to one of the Operational Directors or the Managing Director. Additional meetings take place periodically throughout the year to monitor performance, coordinate service

developments and implement strategies for problem solving.

The Leader of each FCA region is the Registered Manager of the fostering service in accordance with Care Standards Legislation. They have management responsibility for service delivery within their defined geographical regions/countries. The Managing Director ensures that the Registered Managers receive effective ongoing supervision of their work.

Our staff

Managers and Social Workers

- All Registered Managers are professionally qualified in line with the requirements of regulations and National Minimum Standards.
- All social workers and their Fostering Service Managers are professionally qualified and registered individually with one of the four UK Social Care Bodies. Some have post qualifying specialist awards and experience related to working with children and young people in foster care.

Other Staff

- A considerable number of people work for our organisation on an independent, self-employed basis across a variety of roles.

This may include workers who support young people and encourage participation, education staff, therapists and independent fostering panel members. All our staff have appropriate experience and qualifications and have access to supervision and line management.

We value our staff!

- We have an annual employee appreciation day when we show our staff how much we appreciate their hard work to make a positive and lasting difference to so many children and families each year.
- We have an employee forum and a staff group dedicated to providing advice and guidance about issues relating to

diversity and inclusion in the workplace.

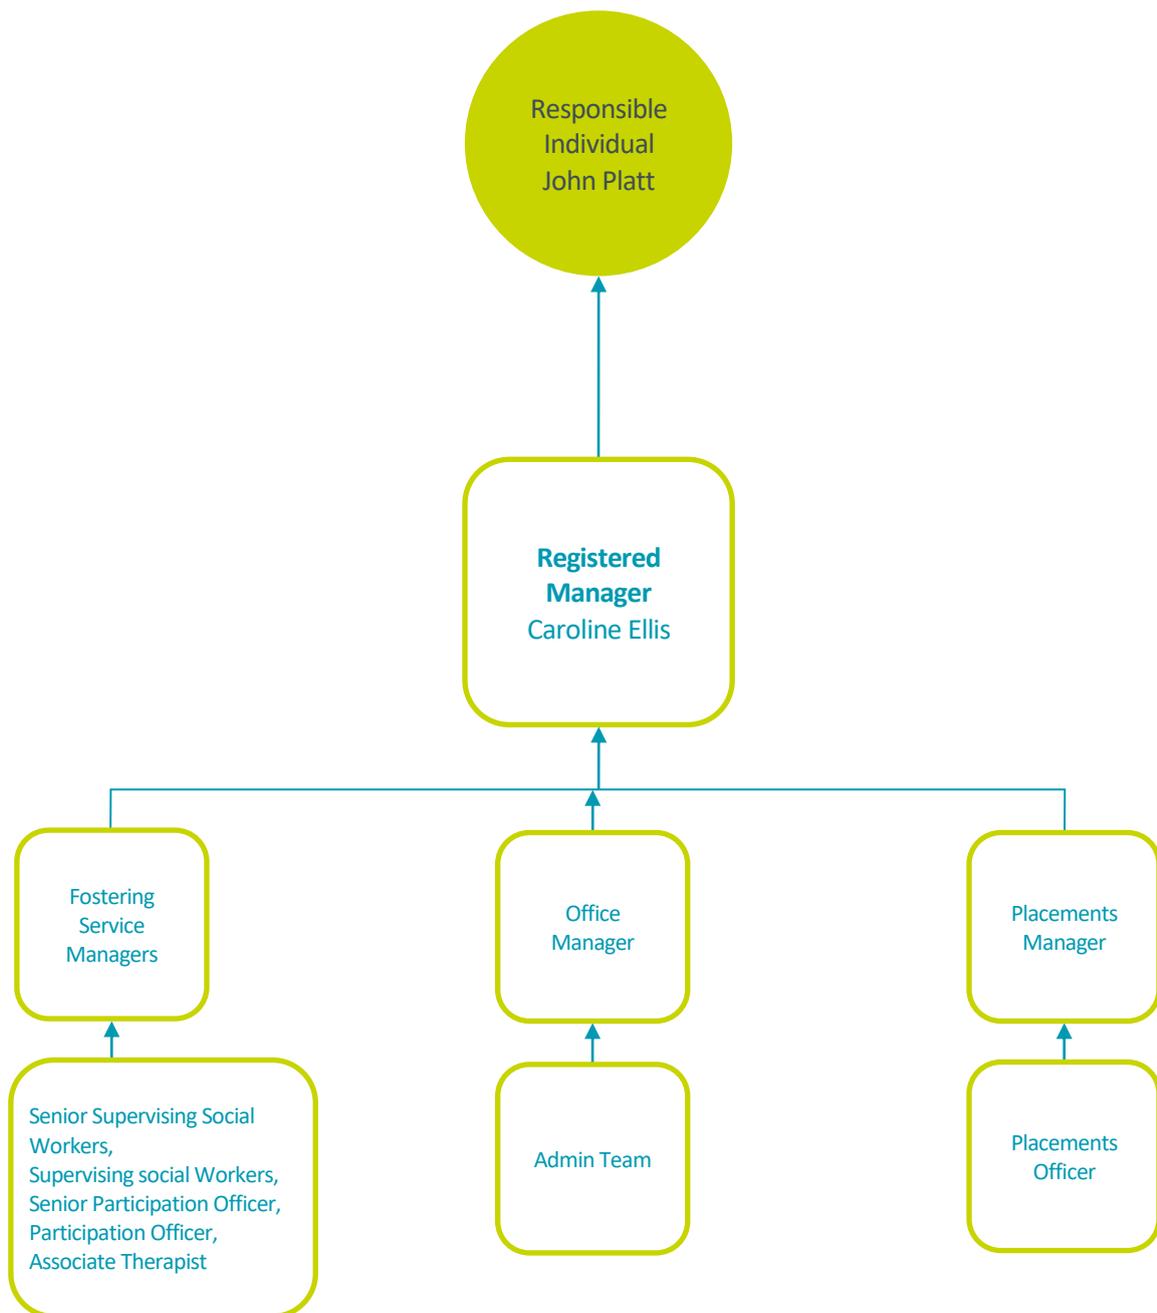

Pre-Employment Checks

- All of our recruiting managers receive 'safer recruitment' training.
- Required checks and enquiries are completed for all staff to ensure that the welfare of children and young people is safeguarded. For all staff including casual and self-employed staff verification of any necessary formal qualifications is obtained.

Insurance Cover

- All staff who undertake work for us on a permanent, casual and self-employed basis, are covered by appropriate professional indemnity and public liability insurance.

FCA Regional Organisational Chart

Children's Photographic Competition

FCA have an annual National Photography Competition which is open to all children and young people aged three years and above

Photography is a fantastic medium, as it is inclusive and accessible to all, regardless of ability or academic aptitude. The project was inspired by a young person, who has a particular passion for photography and has worked alongside us to provide a young person's voice in the planning and preparations.

Below is the winner from FCA South East..

Services we provide

Fostering Placements

All placements are made and monitored in accordance with the Fostering Services Regulations (these vary slightly across England, Wales, and Northern Ireland):

We work closely with Local Authorities and Health and Social Care Trusts to understand their specific needs relating to foster placements in particular areas. We then look to recruit Foster parents from a range of backgrounds who are able to provide high quality foster placements for children in the care of Local Authorities and Trusts. We aim to provide the following placement types:

Emergency - Many of our carers can provide unplanned emergency placements for individual children and sibling groups.

Respite / Short breaks - We have a number of carers who provide respite placements either on a regular basis or one off holiday breaks.

Short term - Short term placements vary in their duration and are often linked to further assessments of the child and other family members, together with court processes. Long terms plans can be formulated in short term placements.

Bridging - We are able to provide placements with Foster parents who are experienced in bridging children to adoption, permanence or independence. Bridging placements form part of the long term plan for a child and usually last up to 2 years.

Long term / Permanency - Placements are available with long term Foster parents who can take individual children or sibling groups. Long term placements are matched and ratified in conjunction with the responsible local authority and health care trusts.

Transition placements – for children moving from residential care

Parent and Child - We are able to provide Foster parent placements where young parents receive support and guidance to help develop parenting skills. Foster parents can also assist local authorities with their assessments by providing information relating to parenting capacity/capabilities.

Single Placements - If the placing authority requires the child to be the only child or youngest/oldest child in placement this would need to be specified at the referral stage to enable the placement to be matched with vacancies accordingly.

Sibling placements - Many of our Foster parents are able to care for large sibling groups which ensures children remain with their brothers and sisters.

Unaccompanied children and young people - A number of our Foster parents have experience of caring for children who arrive in the UK without a family or guardian.

Specialist fostering - Provides placements to children who have complex needs relating to disability, health needs or behaviours that adults can find challenging. These placements usually include enhanced packages of support or additionally purchased services.

Remand - Refers to a placement of a young person who has been remanded to the care of the contracting authority or remanded into custody through legal aid, Sentencing and Punishment of Offenders Act 2012.

Staying put / When I'm ready / Going the extra mile - Refers to the arrangements where by young people aged 18 and older that were previously looked after remain living with their former Foster parents.

Matching Process

All requests for fostering placements are subject to a matching process to ensure that the skills and experience of our Foster parents meet the needs of each child/young person placed with us. This includes completion of risk assessments and safer caring plans which are reviewed when necessary and appropriate.

Placement Planning

Placement plans are prepared and agreed with service commissioners for each placement which include essential information, care plans and clarity about delegated authority for Foster parents in relation to children placed with them.

- Wherever possible, pre-placement planning is undertaken, including introductions between Foster parents and the child(ren). We help young people settle into new placements by providing welcome booklets and video profiles where possible.
- We ensure that the racial, cultural and linguistic needs of young people are addressed and consideration is given to their gender and sexuality when making placement decisions.
- We ensure the homes of our Foster parents fulfill all health and safety requirements.

We support fostered children to maintain contact with friends and family, where appropriate.

Team Parenting®

Team parenting is FCA's commitment to a therapeutic way of thinking about traumatised children and their emotional needs.

It acknowledges the need for all staff to have a basic understanding that children and young people with histories of trauma, abuse or neglect and/or attachment difficulties often require therapeutic input to promote psychological wellbeing and development.

All staff are committed to this holistic approach to fostering which also acknowledges that every support person involved with the young person holds different information and has different experiences of that young person and that when working together they can create a cohesive full picture of their needs.

All Foster parents are supported by FCA social workers and a range of other professionals which may include therapists, support workers and educational staff who are accessible for involvement when needed.

The Components of Team Parenting

FCA Team parenting comprises of two key elements – an ethos and a menu of specific therapeutic interventions which are applied as appropriate depending on the level of the young person's need.

The ethos is engendered across FCA for all placements. This is aimed at establishing safety and stability for the young person allowing for a positive and attached relationship with their carers.

Specific therapeutic interventions could include:

- Joint therapy sessions – a safe and creative space for carers and children/young people to explore and express difficult thoughts, feelings and behaviours which they may be experiencing.
- Consultations – to Foster parents, social workers and other members of staff.
- Training – to Foster parents and staff on understanding and managing challenging behaviours, attachment difficulties, child development, abuse, trauma, self-esteem and relationships.

Additional services such as individual psychotherapy, specialist assessments, post adoption work and early intervention work can also be requested.

Achieving recovery and resilience for some young people however is a complex therapeutic task which can extend over years. In these complex/specialist cases, further therapeutic interventions may be provided, where there has been an agreement in conjunction with the placing authority that a specific level of input is required to support the placement.

The underlying principles of Team Parenting

- Wrapping services around the carer and child in placement.
- Strengths and relationship based.
- Every interaction with the child has the potential to be therapeutic.
- Focused on creating safe, consistent, secure caring environment.
- Planning and goal setting.
- Coordination and cohesion of services.
- Underpinned by Standards of Practice.

Choices and Voices of Young People

Participation is the involvement of children and young people, creating opportunities for consultation and expression, and then using this information to inform practice. This underpins everything we do at FCA.

To achieve this we have a Participation Framework and Action Plan which sets out what we should be doing and ensure there is accountability for this at all levels. We strive to work in accordance with the following core principles:

- Engaging with children and young people to make a positive and lasting difference to their lives.
- Working with children and young people to help them achieve.
- Consulting, listening and hearing the voices of children and young by providing them opportunities to participate in decision-making and influence services.
- Using evidence from participation as the basis for improving standards and improving outcomes for children and young people.
- Delivering innovative and excellent opportunities to young people through a well-trained and skilled workforce that have access to sufficient resources.

We have Participation Ambassadors to be the voice and champion of participation. A good example of participation includes the involvement of young people in interviews of staff and in journey to foster training. Children and young people are also consulted about activities and asked to comment on and contribute to revisions of the Young Persons Guide and the Statement of Purpose. We encourage our young people to have advocates and independent visitors and explain what they do in the Young Person's Guide.

Social Work Service

In addition to the child's social worker from the local authority/health and social care trust, all our Foster parents are supported by an allocated supervising social worker.

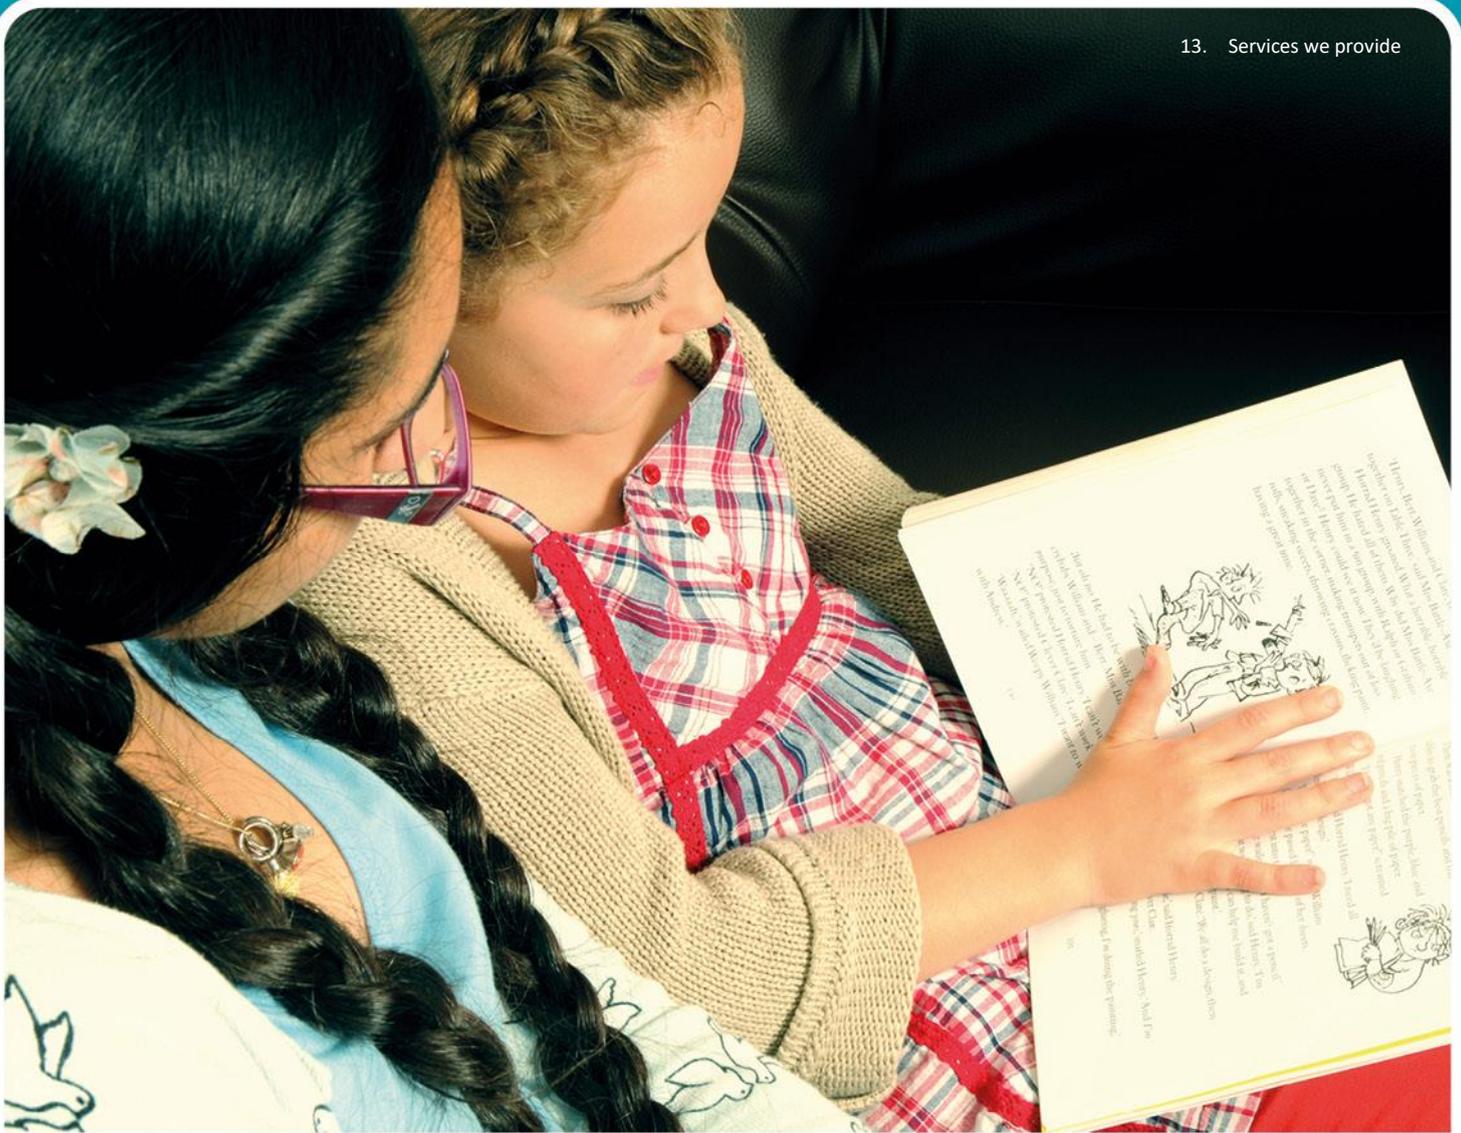

Promoting Best Outcomes

We have an outcomes tracker which our social workers complete regularly with our Foster parents to evidence the progress our children and young people are making. Children and young people are often involved in this when appropriate.

Our supervising social workers will:

- Provide supervision and support to Foster parents in line with regulations and minimum standards.
- Maintain frequent contact with the Foster parent and children in placement through placement visits and telephone calls.
- Make unannounced visits to the foster home.
- Provide advice, guidance and out of hours support to Foster parents on their care of children in placement.
- Coordinate other support services as appropriate e.g. support work and respite care provision.
- Liaise with other professional service providers who may be involved and contribute to formal meetings about care plans for children and Foster parent reviews.
- Identify and help respond to Foster parents' training needs.
- Keep careful records of the progress of placements and achievements of children.
- Help Foster parents achieve the Training Support and Development Standards/ Wales Induction Framework Outcomes or regional equivalent during the formative stage of their fostering career.

Our supervising social workers have a wide range of experience and many have specific expertise, for example in undertaking life story work, leaving care preparation and undertaking parent and child assessments.

Education Support

We are committed to supporting all our children and young people to achieve their educational potential.

Research indicates that looked after children and young people can be particularly disadvantaged educationally. They are more likely than non-looked after pupils to have a disrupted education and additional needs which impact on progress, attainment and life chances. We recognise the significant role our Foster parents and staff have in working in partnership with other professionals to promote educational achievement and positive outcomes for our children and young people.

Education Lead

In each region, we have a designated Lead Member of Staff for Education, who maintains an up to date understanding of legislation and advice relevant to the education of children and young people in care. Under the guidance of the

Director of Education, they disseminate information to carers and staff about education and share good practice to enable us to challenge schools with confidence, when necessary.

Core task

It is a core task of Foster parents and Social Workers to promote the education of the children and young people in their care and understand the role of education in improving outcomes. Attendance, progress and attainment is regularly discussed in supervision, team meetings and reviews. When there are concerns about education, carers readily discuss these with the school and advocate for the child. Carers attend Personal Education Plan meetings and other meetings with schools to ensure they are fully aware of their child's progress and how they can support this at home.

School placements

Foster parents and Social Workers work in partnership with local authorities to ensure, whenever possible, children and young people have a full-time place in a school or other education setting appropriate to their needs. If, for any reason, a child or young person is not in education, we are proactive in liaising with the local authority to resolve this quickly, while supporting the carer with home education as a temporary measure.

Celebrating Success We acknowledge exam results are not the only measure of educational success. We know our children well and how they have progressed from different starting points. We recognise their various educational achievements, academic and otherwise, and celebrate these with our annual achievement awards.

Recruiting and assessing Foster parents

Our recruitment and assessment process takes 4-6 months on average. Every effort is made to ensure there is no avoidable delay.

Recruitment:

- We operate a central Fostering Advice Hub Centre where a dedicated team request basic information from potential carers, answer any preliminary queries they may have about fostering and distribute literature about the work of the agency.
- A Carer Recruitment Adviser undertakes an initial screening of the potential carers and based on the information gathered recommends whether the potential carers should make an application.

Application Process:

- Potential Foster parents complete an application form, giving detailed information about themselves and their family and consent to complete necessary checks and enquiries to ascertain their suitability to foster.
- Applicants are required to have medical examinations completed by their GP to ensure that there are no underlying issues that may affect their ability to foster. Reports are made available to our Agency Medical Advisor for his/her comments.

These include:

- Verification of identity and personal history
 - Disclosure and Barring Service checks on all adult members of the household
 - Enquiries to Children's Social Care Authorities and their Child Protection Registers
 - Enquiries to other agencies as necessary.
- Applicants are asked to identify at least three personal referees who will provide written references and be interviewed as part of the assessment process. References from external agencies and personal references, which are provided in confidence, cannot be accessed without the consent of both the subject and relevant referee(s).

Assessment

- A qualified social worker will carry out an assessment, which requires full participation by the applicant(s). She/he will visit them at their home, generally on 6-8 occasions, to collect information about all members of the household and the applicants' experience and skills in relation to fostering. This forms the basis of an assessment report. We use the Form F1 format published by Coram BAAF.
- An Assessment Manager will supervise the work of the Assessing Social Worker with day to day contact and at least 2 formal structured supervision meetings. This is to ensure regulatory compliance throughout the assessment, to ensure that the assessment remains focussed on key issues to inform an appropriate evidence based recommendation and ensure robust Quality Assurance of the assessment process and the report.
- A Recruitment Support Officer (RSO) will be allocated as an end to end administrative support person throughout the assessment to ensure that necessary checks are sought and chased and as a supportive ongoing point of contact for applicants to discuss any issues within their assessment.
- A robust approach is taken to preparing all applicants for the challenges of the fostering role throughout their assessment, primarily by using 'Next Steps to Fostering with FCA.' This is an electronic tool which supports the applicant(s) and the Assessing Social worker to work together to discuss key aspects of the role using a narrative text and links to a series of videos. The applicant is asked to complete a reflective workbook during their assessment which should evidence understanding and reflections and any areas of further learning need. The workbook should inform aspects of the assessment report and should be available to the Supervising Social worker following approval to further inform an understanding of the applicant(s) understanding and support / learning needs.

- All prospective Foster parents attend preparation training during their assessment. Our training provides further information about the responsibilities of being a Foster parent and working with FCA.
- The Form F assessment report is shared with the applicant(s) and then presented to our Fostering Panel, to assist the decision making process. Applicants are invited to attend the Panel meeting with their assessor.

Fostering Panel:

- The Panel makes recommendations about the suitability of applicants to be approved as Foster parents with FCA. Applicants will be informed of the recommendation of panel on the day of panel itself. The recommendation will inform the decision of the agency.

Approval:

- The Agency Decision Maker (ADM) reads and considers all the assessment information and taking account the recommendation of the Fostering Panel makes the decision to approve applicants or not. The ADM is usually the Registered Manager but there is also a second ADM who is a manager in our Quality Assurance and Safeguarding team who may assist in making decisions about approval or re-approval of Foster parents.
- Applicants are informed verbally and in writing about the agency decision. All information obtained about prospective Foster parents is held on file and some sections are available to view on request.
- Applicants are informed of their right to appeal in accordance with the regulations applying in the jurisdiction in which they are residing.

We welcome enquiries from Foster parents who wish to transfer from other agencies and aim to make the process as quick and smooth as possible.

Reviews of Foster parents

We have a detailed procedure for completing reviews of Foster parents which reflects statute law, regulations, national minimum standards and good practice guidance.

In addition to the requirements to conduct annual reviews, we also undertake additional reviews when appropriate (e.g. following a serious complaint or incident or; where a change of terms of approval is proposed). Independent Reviewing Officers may be used for such reviews and the review may also be presented to the Fostering Panel. In addition to making recommendations to the Agency Decision Maker the Fostering Panel provides quality assurance of the process and content of reviews to the agency.

Our review procedure focuses on core competencies for Foster parents including the Training Support and Development Standards in England and Induction Framework Outcomes in Wales. We always seek external feedback from children's social workers, education providers and others involved with the child. The review also provides a forum to recognise and celebrate the achievements of children and our Foster parents.

Training and support

Training provided for Foster parents and staff

We pride ourselves on being a learning organisation and are proactive in helping both employees and our Foster parents to develop their skills, knowledge and experience.

We are committed to providing high quality training that is accessible and relevant to all of our Foster parents.

Introduction to Fostering

All of our Foster parents complete pre-approval training during their assessment that explores the Next Steps on their journey to become a Foster parent, what it is like to be a young person in foster care and to explore knowledge and skills required to prepare them to be Foster parents such as the role of a Foster parent, working together, understanding children and young people, safer caring, promoting resilience and successful outcomes, transitions - moving on.

Induction

We have an online induction course which looks at the key areas to equip Foster parents with the necessary skills and confidence to take their first child/young person.

Mandatory training

Once approved, there is a comprehensive programme of ongoing training and development available; starting with mandatory courses that all Foster parents will receive.

These include more specific training in safeguarding, emergency first aid, medication and health care, health and safety in the home, managing challenging behaviour and safer caring.

Complementary training

We have a wide range of courses available both online and face to face that will be discussed with Foster parents and will inform their Personal Development Plan to further develop knowledge and skills in particular for those who may have specialist placements or to meet the specific needs of particular children.

These include:

- Working with children with disabilities
- Caring for unaccompanied asylum seeking children
- Children moving from residential care
- Parent and child
- Therapeutic courses
- Other Safeguarding topics such as Child sexual exploitation, County Lines, E-Safety and Radicalisation

We actively encourage and support our staff to develop their skills, knowledge and professional qualifications.

There is an extensive catalogue of learning opportunities available for staff at all levels and in all roles within the organisation. This can include training relevant to their current role or to help them prepare for future roles. These include:

- The Social Work Academy
- Safeguarding courses
- Management skills
- Apprenticeships

We believe in learning alongside peers and offer joint training sessions for both staff and Foster parents to enable the sharing of best practice and experiences.

All our training is mapped to regulations and national minimum standards and cross referenced to the Training Support and Development Standards in England and the Induction Framework Outcomes in Wales.

Foster parents and staff are expected to take responsibility for their own learning and demonstrate ongoing personal and professional development.

Support for Foster parents

The support package we offer values the work of our Foster parents and the positive contribution they make to the lives of children/young people. We recognise that appropriate support for the families who foster is vitally important to ensure a successful placement.

All of our Foster parents have access to the following:

- Access to a member of staff 24 hours a day, 7 days per week, 365 days a year.
- Supervision and support from a qualified and experienced supervising social worker.
- Regular visits and frequent telephone contact from a supervising social worker.
- Regular support group meetings.
- Access to a legal advice helpline and specialist independent support scheme.
- A level of financial support that values the skills of Foster parents.
- Organised activities for children/young people.
- Membership of FosterTalk. This offers advice on fostering and educational issues as well as free legal advice, legal expenses insurance, advice on tax and personal finance issues. There is also a quarterly magazine and monthly e-newsletter to help Foster parents to keep up to date on items which may be relevant to them.
- Corporate membership of the Fostering Network and CORAM BAAF.
- A respite package, usually up to 14 nights, which meets the needs of both the child and the Foster parent.
- An exclusive online platform which gives access to regional / national news and updates, blogs to lots of shopping discounts and great deals from some of the major retailers.

Carer Voice

We work alongside our Foster parents to develop our fostering provision. This means that we have carer representative roles in each region and local and national carer forums. The voice of Foster parents is central to the continuous improvements of the service we provide. We encourage feedback at all levels, this includes consultation for carer reviews and other more anonymous surveys.

We value our Foster parents!

We take pride in how we communicate and engage with our Foster parents

We have an annual Foster parent appreciation day when we show our Foster parents how much we appreciate their hard work to make a positive and lasting difference to so many children and families each year.

Quality Assurance & Safeguarding

We have a designated Quality Assurance and Safeguarding (QAS) Team which works across the Polaris Community to ensure that safeguarding is given the highest priority and that improving quality is constantly on the agenda.

We aim to:

- Lead the sector in terms of quality
- Achieve best outcomes for the children and young people in our care.
- Create the best place to work for our Foster parents and staff
- The QAS Manager works closely with the Registered Manager and other staff in the region advising and supporting them to ensure safeguarding procedures are followed correctly and that the agency is a learning and constantly improving organisation. We promote a culture of continuous improvement, giving careful attention to feedback about services offered by any individuals or organisations with whom we come into contact.
- Registered Managers and QAS Managers report to the Quality Assurance and Safeguarding (QAS) Board, chaired by the Group Head of Quality Assurance and Safeguarding and attended by Senior Officers including the Chief Executive. The QAS Board has an overview of key performance, and compliance with practice standards and regulation. The QAS Board thematically reviews Quality of Care and annual reports and has further developed its line of sight on practice and has developed the Senior Officer Oversight of Practice (SOOP) that provides a

mechanism for Senior Managers to dip sample the quality of practice and case recordings and feedback good practice and areas for further development.

- Our ambition is to continue to strive for excellence in all that we do and outstanding outcomes for children, young people and young adults whom remain with their fostering families.

Regulatory Inspections

As a registered provider of social care we have regular inspections of our agency. We welcome inspections as a means of monitoring the service we provide and encouraging us to strive for outstanding outcomes for the children placed with our Foster parents.

Inspection reports are publicly available through the relevant inspectorate website which can be accessed via the FCA website. They are also available from the relevant regional office or from the Quality Assurance and Safeguarding Team based in Bromsgrove (see useful contact addresses).

To help us prepare well for inspections we have an internal service review process which reviews progress since the last inspection and identifies areas requiring further improvement.

Complaints and compliments

- We take all complaints seriously and ensure they are investigated in accordance with our complaints procedure.
- We always work to improve practice following any complaints.
- All children/young people placed with our foster parents are informed of the Representation and Complaints Procedure on commencement of placement. Information on this is also included in the guide to the service which is given to children and young people.
- Leaflets and posters about the complaints process are available which are accessible to the wide age range of children and young people placed with us.
- All Foster parents, staff and placing local authorities/health and social care trusts are provided with information about our Representation and Complaints Procedure.
- A summary of complaint outcomes and their impact upon service delivery are collated and reported to the Quality Assurance and Safeguarding Board.
- Local Complaints analysis is included in our regional annual review of the quality of care provided by the agency.
- A record of all compliments received is also maintained and included in quality of care reviews to inform any changes to practice.
